

C-C440 com-control / push-to-talk unit – easy to operate even underneath protective clothing

Designed for following uses and industries

KEY BENEFITS

- Large surface PTT (push-to-talk) button secures radio transmission in all situations
- Easy to operate even while wearing heavy duty gloves and other personal protection equipment
- Adapts any Savox Classic headset to your two-way radio via an integrated headset jack
- Reliable and durable - dust proof and water submersible to the IP 67 standard
- Slim design
- Large 360 degree rotating clip
- Also available with an emergency button (for use with radios that support this feature)

The Savox C-C440 com-control unit is a push-to-talk unit designed for use with your two-way radio in demanding environments. It offers easy and reliable communication for professionals requiring durable equipment when operating in harsh conditions, and is ideal for those who need to communicate hands-free and/or with their radio secured underneath protective clothing.

With a headset it provides a hands-free way to stay connected with your team and ensure the efficiency and safety of your operations.

Rugged to IP67 and available as an ATEX Version.
